

TRAINMEN NOW PUT ON THE DEFENSIVE

Eight Hour Demand Dies Out When Railways Forbid Double Compensation.

MAY BREAK UP MEETING

The committee of general managers of the railroads yesterday morning presented their side of the wage controversy to the representatives of the brotherhoods. Accepted at the time without comment, the move, it is thought, may break up the conference within a few days, as it will shift the unions to the defensive as they proceed.

Soon after the meeting began in the Engineering Societies Building yesterday morning Elsie Lee, joint chairman, on behalf of the managers read quietly:

"Before taking up the formal discussion of your proposals, our committee, as expressing its attitude and on behalf of the companies, hereby restates the position of said companies as follows:

"The railroads have no desire to change either the existing rates of pay or the working rules, nor to reduce the earning possibilities of the employees under their existing rules; but inasmuch as your proposals contemplate fundamental changes in operating methods and practices on which the schedules have been built up, this committee reiterates that in connection with and as a part of the consideration and disposition of your proposals there shall be open for consideration and disposition these provisions:

"(a) No double compensation for the same time or service.

"(b) The same classification for the purpose of compensation to be applied to all members of a train and engine crew.

"(c) Two or more differently paid classes of service performed in the same day or trip to be paid proportionately according to the class of service, with not less than a minimum day for the combined service.

"A. R. Garretson, chief of the railway conductors and spokesmen of the union representatives, did not bat an eye as this statement was read into the record. W. B. Stone of the locomotive engineers' union, however, who is known to the railroads as having placed themselves in a position for all time to have their position considered whether in arbitration or conference.

The agitation for an eight hour day died out to a large extent at the meeting yesterday. It was admitted frankly by the men that such a thing is not really the object of the proceeding, so far as the engineers and firemen are concerned. It is only an incident, a basis upon which calculations are to be made.

What the men want now, as set forth both by Mr. Stone and Mr. Garretson, is for the railroads to speed up their running time two and a half miles an hour for their freight trains. In other words, they want runs of 100 miles now made in ten hours to be made in eight hours at the same rate of pay they now receive.

The answer of the railroads is that in order to make faster runs it will be necessary to shorten the trains, which will mean the expense of new crews. The reply of the workmen is that statistics show that on the Western railroads 78 per cent. of the freight runs were made at a speed which insures the practicability of the proposed schedule. Where division points are 125 or 150 miles apart the men are willing to make these runs at the rate of twelve and a half miles an hour in ten or twelve hours, but if it takes longer than that they want time and a half for the overtime.

The conference will be resumed at 10 o'clock to-morrow morning.

HIGHER CARFARE ORDERED.

Manhattan Bridge Line's Rival Must Increase Rate.

The Public Service Commission decided yesterday that the Brooklyn and North River Railroad Company, which operates over the Manhattan Bridge, is too generous with respect to those passengers which it takes from the Manhattan Bridge Three Cent Line and that it must hereafter observe more carefully its franchise.

The Manhattan Bridge Three Cent Line complained that its competitor, which was organized after the Manhattan Bridge Three Cent Line added its franchise, has inaugurated a service from Broadway, Manhattan, across the bridge to Concord street, Brooklyn, the fare rate being three cents or two tickets for five cents.

Commissioner Haywood found that the Brooklyn and North River Railroad Company was not dropping its passengers where the Brooklyn line was reached but was carrying them beyond the bridge terminus, in many cases to Fulton street.

The Commissioner holds that a five-cent fare must be paid by passengers carried beyond the terminus.

SEARCH FOR APHASIA VICTIM.

John Newland, Manhattan Business Man, Strangely Missing.

WHITE PLAINS, June 3.—The local police asked the police of New York and Westchester county to aid in a search for John Newland of 15 North Broadway, White Plains, who has been missing since Thursday. It is believed he wandered away while suffering from aphasia.

Mr. Newland is president of the Hall-Bochert Dress Form Company of 30 West Thirty-eighth street, Manhattan. The request that the police send out a general alarm was made by McLaughlin, Russell, Coe & Sprague of 185 Broadway, attorneys for the missing man.

Thursday morning Mr. Newland had his usual breakfast with his family, Mrs. Newland and their four children. Mrs. Newland left the house in her usual engagement and Mr. Newland, following his usual custom, lingered to play with the younger children for a few minutes. He suddenly remembered that he had overplayed his time and that he had missed his train to New York and would take the next one. But instead he turned in the direction of North White Plains.

JEWISH PENTECOST JUNE 7.

Celebration Being Planned for Local Synagogues.

The Jewish Pentecost or Feast of Weeks (Shavuot) will be celebrated on June 7. The name of this feast is derived from the fact that it is celebrated seven weeks after the second day of Passover.

All the local synagogues will hold celebrations, the nature of which are laid down by Biblical injunction. The feast was originally agricultural and was in reality a season of thanksgiving for the harvest that had been reaped, beginning with the barley harvest during the Passover to the wheat harvest at the beginning of the summer.

Young boys and girls are charged, through an impressive public ceremony, with the meaning of the Jewish faith and with the duty of leading a religious and moral life.
